

TMMC Media Statement – April 23, 2020 – 3:30pm ET

Toyota to gradually resume production starting May 4

Beginning the week of May 4, Toyota intends to gradually resume its North American manufacturing operations in compliance with all federal, provincial and local regulations and guidelines. The health and safety of our employees and communities remains a top priority and we have implemented new protocols at all of our North American manufacturing plants to help mitigate the spread of COVID-19. We will continue to follow the guidance of health authorities and monitor vehicle demand as we carefully ramp up production.
