

Toyota postpones ramp up of manufacturing operations to May 11

April 29, 2020 - Based on an extensive review with our supplier and logistics network, Toyota will postpone its ramp up of its North American manufacturing operations **from the week of May 4 to the week of May 11**. As previously stated, Toyota intends to gradually resume its manufacturing operations in compliance with all federal, provincial and municipal regulations and guidelines. The health and safety of our employees and communities remains our top priority, and we have implemented new protocols at all of our North American manufacturing plants to help mitigate the spread of COVID-19. We will continue to follow the guidance of health authorities and monitor vehicle demand as we carefully ramp up production.
